Y. M. C. A. BASEBALL NOTES (J. M. Small, Co. Secy.)

Our base ball season is about to begin and the secretary wishes to call attention to the fact that each organization that enters the league must stick strictly to the following rules:

Each player must be an active mem ber of the local organization. His dues must be paid and he must attend fifty per cent of the meetings of the organization. Each team must furnish an umpire

The following is a schedule of games and where played.
Group one.—Brunswick, Granger

and York.
June 7—Brunswick vs. Granger at June 21-York vs. Brunswick at Brunswick.

June 28-York vs. Granger at York. July 12-Brunswick vs. York at July 26-York vs. Granger at Gran-

Aug. 2-Brunswick vs. Granger at Group two.—Lodi, Litchfield and Chippewa Lake.

June 7—Lodi, vs. Litchfield at Litch-field. June 21—Litchfield vs. Chippewa Lake at Chippewa. June 28—Chippewa Lake vs. Lodi

July 12-Litchfield vs. Lodi at Lodi. July 26—Chippewa Lake vs. Litch-field at Litchfield.

Aug. 2-Lodi vs. Chippewa Lake at Chippewa Lake. Group three.-Medina, Wadsworth

and LeRoy.
June 7-Medina vs. Wadsworth at Medina.

Wadsworth. June 28-Medina vs. LeRov LeRoy.

LeRoy. Medina. Aug. 2-Wadsworth vs. Medina at

of the American Red Cross, Lake Division department of Civilian Relief.

Present day problems of Home Serision headquarters officials and representatives from Red Cross chapters in Ohio, Indiana and Kentucky.

Public health heads from the three states and prominent social workers will discuss public health work and the problems of organization to be met in cities and rural districts by American Red Cross chapter.

Medina county Red Cross headquar-ters will be closed on Friday and Saturday, May 23 and 24, in the absence of Miss Wells who will attend a conference of Civilian Relief workers in

The future activities of Red Cross in Civilian Relief will be discussed and

Government Insurance

Keep up your insurance, but don't there and there is every reason to try to convert it yet—this is the advice of Washington to all soldiers, perts their best assistance in stampsailors or marines, who have taken out war risk insurance. Home Service workers are asked to urge discharged men to keep up their government in-surance. It is a good provision for the future, and cheaper than commer-

Plans have not been completed for

converting the war risk insurance into permanent policies. More liberal pro-vision regarding this will be an-nounced shortly.—Lake Division News.

General Pershing Praises Work A copy of a letter from General John J. Pershing to Lieut.-Col. George H. Burr, American Red Cross commis-

peditionary Forces for the services which your organization, from the arrival of the first American contingents, has rendered to the Army, and which have constantly increased in variety,

magnitude and value.

"The first concern of the Red Cross is naturally for the sick and wounded. Its untiring and self-sacrificing work in this field in furnishing needed sup-plies and personnel has been of im-mense assistance to the Army, Medical and Sanitary corps, and has greatly supplemented their work by the esablishment and maintenance of Red Cross hospitals and convalescent homes. Its relief work for American prisoners of war has been of incalculable value. Through its organization in Switzerland our men in enemy prison camps were supplied with American food, clothing and other necessities and comforts, which beyond doubt saved the lives of hundreds. youd doubt saved the lives of hundreds and mitigated the sufferings of all.
"The canteens conducted by the Red

Cross in and near the front lines and at railroad stations along the lines of communication were invaluable during hostilities and have continued to contribute to the comfort of our soldiers during the frequent troop movements occurring since the armistice. The home communication service and the information concerning casualties have June 21—Wadsworth vs. LeRoy at and have been a source of the greatest comfort and reassurance to those at home. The Red Cross has also conducted many incidental activities, such July 12-Wadsworth vs. LeRoy at as hotels, diet kitchens and recreation huts at hospital centers. It has ex-July 19-Medina vs. Wadsworth at hibited at all times a willingness to meet promptly any emergency U.S. bonds deposited whether or not strictly within the particulation

land on May 23 and 24th by the staff county, Illinois. They are called of the American Red Cross, Lake Dismut, and are found in many of the foreign countries. This year seems vice and its future possibilities outlined in the new Red Cross peace program will be discussed by Lake Division headway town of the countries. This year seems to be the first that they have put in their appearance in the United States. Take-all has caused serious losses in Australia, and has been reported as a serious pest to the oats, barley, rye, and rice, and certain other wild grasses in Europe. Urocystis is known in Australia, India and Japan, and is the flag smut of wheat. Neither one of these wheat pests have yet been reported to have caused as great losses as the black stem rust in this country. The fields investi-gated in Illinois were damaged from a 1 per cent to 90 per cent, and the bad fields were being plowed up by the farmers who owned them. Both

the pests have been found in the same field, which leads to the belief that they were brought here from Austra-lia. The conditions in this country are not so much different from the ones under which they flourished over

Flag smut attacks the upper parts of the wheat leaves and particularly the upper leaf of the stalk, and the smut spore stripes contort the leaf into a spiral. The affected plants do not produce heads.

The quarantine regulations that

fore the disease was discovered in Illinois will now be put into force and foreign importation of seed wheat will be forbidden.

Prof. C. G. Williams of the Ohio

Experiment station says that so far there have been no reports of the disease in this state. The Ohio wheat sioner to France, was given out recently at Red Cross headquarters. General Pershing's letter follows:

My dear Colonel Burr:

"I wish to convey through you to the American Red Cross my personal appreciation and the gratitude of the officers and men of the American Expeditionary Forces for the services the session of the services is doing fine, and a bumper crop is expected. He adds that there has been some nervousness among the farmers concerning the yellowness on the ends of the wheat leaves this year. He does not think that it should cause any alarm, that it is likely due to the long duration of the wet weather, and the prevalence. year. He does not think that it should cause any alarm, that it is likely due to the long duration of the wet weather, and the prevalence of clouds. The wheat needs the sunshine to keep it fresh just the same as little chickens need it to make them grow. With the new weather and hot sun coming now, Prof.Williams believes that the disease symptoms of yellow will soon disappear.

MEN'S 10-ACRE CORN CONTEST

Rules for the Men's 10-Acre Corn contest conducted by the Ohio State University are being distributed. The contest is open to any person farming in Ohio who is more than 20 years of age. Contestants raising an averof age. Contestants raising an average of 100 or more bushels of corn to the acre will be elected to life membership in the One-Hundred Bushel Corn Club of Ohio. Gold medals will be awarded to champions in the counties and a grand championship cup will be presented to the state winner. Complete rules may be had from the County Agricultural agent or the Department of Farm Crops, Ohio State University, Columbus.

When In Cleveland Leave Your Car

THE EUCLID SOUARE GARAGE EAST 13th STREET-NORTH OF EUCLID CLEVELAND

You Can Do Your Own Service Work With an Avery

This is a mighty important thing to remember when you consider the purchase of a tractor. Any working part on an Avery tractor can be renewed and installed by yourself without the ald of expert help. For example-should you wear a cylinder wall, you don't need to buy a whole new cylinder, just simply get a new wall and put it in. Avery tractors have adjustable main crank shaft bearings, all you need is a socket wrench to adjust them to take up the wear. No expert help needed.

These are just two of the many features in an Avery tractor which help to eliminate loss of time and service expense

Remember that Avery's are tractors with the perfected opposed motors and patented sliding frame transmissions, and they're built in sizes for every size farm. Come in and see them.
